Dear Gerry Grant,

It has been a very busy time since your wonderful class came together here at the beginning of the month and I apologize for being so late in acknowledging what you did for us and what a pleasure it was to have you here on campus. The painting and canning, and scrubbing, and housecleaning all helped us very much in getting ready for the coming school year. But far beyond the practical matters of help in the work was the realization that you and your classmates do retain an abiding interest in the school and in its welfare. We hope very much that we shall do nothing that will betray your trust in us and we certainly welcome all the guidance that we can get in the struggle with the problems of change and adaptation.

Most affectionately,

  
Tom Brown  
Principal
